Policies and Procedures

Mission Statement

“To strategically acquire properties, return them to productive use, reduce blight, increase property values, support community goals and improve the quality of life for county residents.”

Introduction

The Stark County Land Reutilization Corporation (SCLRC) Demolition Assistance Program (DAP) was designed in accordance with the mission of the SCLRC and consistent with the purposes set forth in the SCLRC’s adopted Agreement and Plan, to reduce blight and increase property values, and improve the quality of life for county residents. The program will facilitate Applicants with the strategic demolition of blighted, vacant, or abandoned properties that are beyond repair or rehabilitation.

Applicant Eligibility

Eligible applicants include Stark County, its political subdivisions, and qualified non-profit organizations. A qualifying non-profit organization is an organization which meets the requirements of a non-profit organization under Ohio law, and whose requested project serves the public purpose to advance and improve the development of a community or area through the removal of blighted, vacant or abandoned properties that are beyond repair or rehabilitation, and increases property values, and enhances the quality of life for county residents.

The SCLRC reserves the right, in its sole discretion, to determine whether an applicant is qualified. Acceptance of an application does not indicate qualification. Specified funding assistance will be made available by the SCLRC once eligibility requirements are met and a contract is signed with the Applicant.

Property Eligibility

A property must meet certain eligibility requirements before SCLRC will consider funding assistance. The eligibility of any given property in the DAP is subject to override by higher priorities as established by the SCLRC. See the following requirements:

- 1.) All properties must be located in Stark County, Ohio.

2.) Eligible properties must meet the definition for a “Blighted Structure” that is set out in the Ohio Revised Code (ORC 1.08). This definition is as follows:

3.) All Properties must be owned by the Applicant. However, if the property is not owned by the Applicant, the Applicant must have completed the proper legal authority to demolish the structure prior to requesting funding. This can be done through:

- A.) Property owner consent
- B.) Nuisance Abatement

Contract

Upon approval, a contract will be executed between the Applicant and the SCLRC.

Within the contract, the SCLRC agrees to reimburse the demolition project under the following terms and conditions:

1. The SCLRC's portion of the funds reimbursed to the interested entity will not exceed fifty percent (50%) of the total documented hard costs of the project.
 - a. Reimbursement amount depends upon the project allocation.
2. The entire sum committed by the SCLRC to a particular project will be allocated toward the **physical** demolition of the structure located on a property.
3. The SCLRC will pay to the Applicant an amount equal to that invested in the project, with proof of payment, not to exceed the 50% match. If demolition costs are less than agreed upon in the Contract, SCLRC will only reimburse up to the 50% match.
4. The Applicant completes the demolition according to the contract terms and conditions.
5. The SCLRC has the ability to terminate a project if any of the outlined terms and conditions are not met.
6. In the event that the Applicant recover any amount for its expenses of the project from the property's owner, or other responsible party, insurers, assigns, or other third-parties, either through settlement and/or collection proceedings, or other means including enforcement by assessments, liens, and tax foreclosure proceedings, the Applicant shall reimburse the SCLRC for amounts paid by the SCLRC under the terms of the Contract.
